- Account will convert to the regular tiered rate Money Market Account on the first day of the month following the end of the 12-month promotional period.
- See above for minimum balance and new money requirement.

### Truth in Savings Disclosures

1. **Rate Information** – The Interest Rates and Annual Percentage Yields on your deposit account are stated above and may change at any time as determined by us, except as otherwise disclosed herein. **The promotional APY is guaranteed for twelve months, after which the account will convert to the tiered rate Money Market Account with variable APYs in effect at time of conversion and based on the account balance as described on the applicable rate sheet.** The APY is a percentage rate that reflects the total amount of interest to be paid on an account based on the interest rate and frequency of compounding for an annual period. The APY assumes that interest will remain on deposit until maturity. A withdrawal of interest will reduce earnings.

2. **Compounding and Crediting** – The Rate Sheet describes the time frames for compounding and crediting interest.

3. **Balance Information** – The High Yield Money Market Account requires a $10,000.00 minimum balance to open the account and to earn the promotional APY. Interest is calculated by the daily balance method, which applies a daily periodic rate to the full amount of principal in the account each day.

4. **Accrual of Interest** – Interest will begin to accrue on cash deposits and on non-cash deposits (e.g. checks) on the business day you make the deposit to your account.

5. **Nontransferable/Nonnegotiable** – All accounts are nontransferable and nonnegotiable. The funds in your account may not be pledged to secure any obligation of an owner, except with the Credit Union.
